PARALLEL SESSIONS - DETAILS

Session #1 BOOST

Panel discussion	Today's business environment is characterised by rapid tech advancements and globalisation, and is abetted by the Ind5.0 phenomenon. Innovation is indispensable for competitive advantage and economic growth and both open innovation and value co-creation have key roles in this transition.
Moderator	Mr Johan Zammit, Malta Innovation Forum
Panellists	Mr Fredrik Trella, RI.SE Dr Graham Hili, Lemonworx Prof Ing Emmanuel Francalanza, University of Malta Dr Ing Alexia Pace Kiomall, EEN Malta

Session #2 EMPOWER

Workshop	Tehnological breakthroughs empowered by enabling technologies have a transformation potential that can address industrial and societal challenges, and advance the green and digital transition. To exploit this transformative potential, novel technologies should be human-centred, in alignment with Industry 5.0. technological frameworks.
Workshop leaders	Ms Francesca Foliti, APRE Ms Brigita Jurisic, INL Ms Brigitte Tanti, EEN Malta

Session #3 SUSTAIN

Panel discussion	Steamlining processes will lead to increased resource efficiency and reduced energy consumption. Process monitoring provides more efficient use of raw materials and less waste as a result. By adopting Ind5.0 principles, business resources are reused or repurposed rather than discarded after use.
Moderator	Mr Gabriel Cassar, Malta Business Bureau
Panellists	Mr Philipp Seifert, Seifert Systems Ltd Prof Ing Paul Refalo, University of Malta Ms Suna Akbayir, Artech International
